

# Idea Triage

A path to find your tribe.

## Step 1: Generate Possibilities

**1. Write down 3-4 topics that you might like to explore in this workshop on post-its and add those to the board.**

## Step 2: Idea Clustering

- 1. Work together to cluster post-its with related/similar ideas in this section.**
- 2. Once the group has clustered the ideas, take a step back to review the outcome.**
  - Are there any additional moves that need to be made or connections to be drawn?
- 3. Draw a circle around each cluster of ideas and name it.**

## Step 3: Find Your Tribe

Groups can now form in a variety of ways:

- You can do a simple show of hands
- Participants can 'pitch' a circle to the group.
- The group can create an approach together.
